

# UFO Breezeway Midspan Cable

The Connectix UFO (Unseen Fibre Optics) External Midspan Cable is designed to be used outside of Multi Dwelling Units (MDU) such as within balcony corridors or on an apartment block external facia wall. The OD is just 2mm (up to 12-fibre) and 3mm (16-24-fibre). Produced with bend insensitive singlemode G.657.B3 ITU-T optical fibre the cable can be installed onto the most challenging building exterior. Designed to be installed quickly as part of the Connectix UFO FTTH MDU solution, the cable is suitable for installation within UFO Midspan boxes. Moisture protected, flexible and halogen free the cables have a sheath and when installed by a Connectix Approved UFO Fibre Installer a 25-year System Warranty is available.

100% Dielectric

High Flexibility

Halogen Free

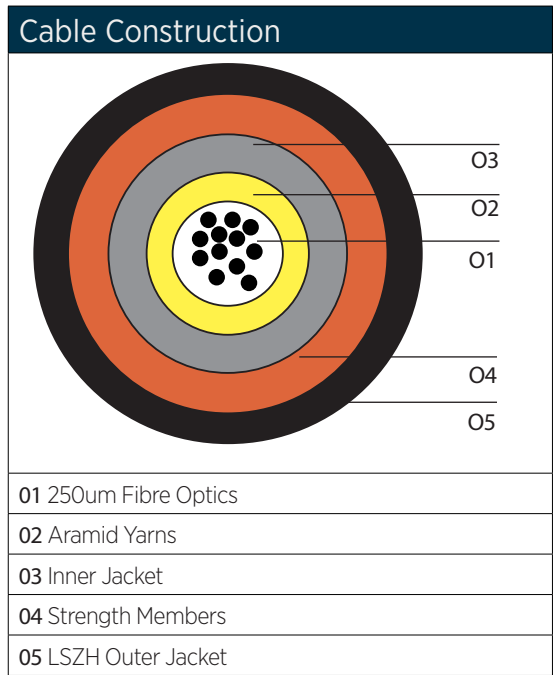

Flame Retardant

## Features & Benefits

- All dielectric construction
- Suitable for FTTx, FTTb, MDU, SMDU, SDU and Retro-build Applications
- Fire Rated to Cca-s1a-d0-a1
- Fully complies with BS6701:A1
- UV Resistant
- High Flexibility

Product Specification		
Application	FTTx, FTTB, MDU, SMDU, SDU, Retrobuild	
Available Core Types	1, 2, 4, 8, 12, 16 & 24 Cores	
Overall Diameter	1 to 12 core	2mm
	16 to 24 core	3mm
Material	Halogen Free Low Smoke Emission Flame Retardant	IEC 60754-1/2 IEC61034-2 IEC 60332-1
Crush Resistance (N/DM)	800 (IEC60794-1-21 E3)	
Max Tensile Load (N) (2mm/3mm)	Operation	90/120
	Installation (IEC 60794-1-21 E1)	160/220
Temperature Range	0 - 60°C	
Min Bend Radius (2mm/3mm)	Operation / Installation	10mm / 15mm
Fibre Core Size	250um	
Fibre Type	Bend Insensitive G.657.B3	
Weight Kg/Km	12 (up to 12-fibre)	15 (16-24-fibre)
Sheath Colour	Black	
CPR Rating	Eca	
Core Colours	(EIA / TIA 598)
