

V3 Fiber Blowing Machine 1000N

The V3 Fiber Blowing Machine 1000N is a robust and powerful, pneumatic operated fiber blowing machine designed for single cables and for relining of multiple microducts. Configuration can be made for cables between 4 and 40mm, making it ideal for both microfiber cable installations and backbone installations, with duct dimensions between 10 and 63mm. The unique joystick controller and agile motors ensure optimal control of the installation. With an anodized aluminum construction, the machine is lightweight yet exceptionally strong.

V3 Fiber Blowing Machine 1800N is also available which is stronger and can do subducting, rodd pushing and floating but is slower at blowing fibre (50m/min).

Features & Benefits
